Chemical Regulatory Annual Conference

CRAC 2024

16TH CHEMICAL REGULATORY ANNUAL CONFERENCE

In today's rapidly changing global landscape, the pace of economic growth has slowed, creating fresh uncertainties and challenges for businesses worldwide. As industries grapple with this new reality, the Chemical Regulatory Annual Conference (CRAC) emerges as a beacon of knowledge, offering a platform for industry leaders to navigate evolving regulatory landscapes and seize untapped growth opportunities.

Since its inception in 2009, CRAC has been at the forefront of the industry, gathering government representatives, renowned experts, corporate leaders, and academic professionals under one roof. This esteemed conference has become synonymous with cutting-edge insights and collaborative exchanges, shaping the future of chemical and agrochemical regulations.

Now, in 2024, CRAC Global enters its 16th edition with an innovative approach, embarking on a global tour spanning China, South Korea, Japan, and Europe. With a laser focus on critical topics such as chemicals, pesticides, cosmetics, and sustainable development, the conferences promises thought-provoking discussions, invaluable insights from industry experts, and a multitude of growth opportunities.

In 2024, CRAC Global takes a significant stride towards Europe with the launch of CRAC Europe 2024 - Agrochemical Session. This remarkable event unites companies from China and Europe, fostering knowledge exchange and collaboration in the realm of pesticide and biostimulant registration. By bringing together regulatory authorities, multinational corporations, and industry experts, CRAC Europe 2024 aims to explore the latest trends and regulations in global pesticide and fertilizer management, empowering agricultural chemical companies to plan and enhance trade opportunities in China and Europe.

Chemical Regulatory Annual Conference

Since 2009, the Chemical Regulatory Annual Conference (CRAC) has brought together global forces for 16 consecutive years to build industry dialogue, invite global government agencies, industry experts, and business representatives to discuss global chemical management trends, exchange international advanced management experience, and extend to sub-sectors such as pesticides, disinfectants, cosmetics, food contact materials, pharmaceuticals, green and low-carbon sectors, and promote green, safe, and sustainable development of the industry, injecting new vitality into the benign development of the industry.

Over the years, CRAC has established partnerships with renowned institutions such as the Helsinki Chemicals Forum (HCF), the United Nations Environment Programme (UNEP), the European Commission (EC), and the Organisation for Economic Co-operation and Development (OECD), etc. Notably, CRAC has attracted distinguished global government agencies and associations to its events, including the Ministry of Ecology and Environment of China, the Ministry of Emergency Management of China, the Ministry of Transport of China, the Ministry of Agriculture and Rural Affairs of China, the European Chemicals Agency, the United States Environmental Protection Agency, the National Institute of Environmental Research of South Korea, and many other government agencies and organizations.

2009-2019

Since its inception in 2009, the Chemical Regulatory Annual Conferences (CRAC) have been a key platform for promoting international regulatory communication and cooperation. The CRACs brought together participants from diverse industries, who shared cutting-edge information and explored new ideas and solutions for compliance, which contributed to the development and progress of the industries.

2020-2022

From 2020 to 2022, REACH24H has organized the online CRAC for three consecutive years in collaboration with esteemed partners, including the Helsinki Chemicals Forum (HCF), United Nations Environment Programme (UNEP), European Chemicals Agency (ECHA), European Commission (EC), etc. Overall, the online CRACs have attracted over 10,000 attendees from 92 countries/regions, making it a truly international platform for knowledge sharing and collaboration.

2023

In 2023, the 15th Chemical Regulatory Annual Conference (CRAC 2023) takes a significant leap forward, bringing together an even greater number of companies and showcasing splendid experiences. It provides a valuable opportunity to delve into emerging regulatory requirements, and global market trends, and facilitates the exchange of ideas while fostering collaborations.
