Singapore (2025).

CRAC 2025

17th Chemical Regulatory Annual Conference

With increasingly stringent global chemical regulations and evolving environmental compliance requirements, governments worldwide are reinforcing chemical environmental management to enhance industrial sustainability and mitigate impacts on human health and ecosystems. As a key hub for chemical production and consumption, the Asia-Pacific region faces both challenges and opportunities in areas such as new chemical substance management, sustainability disclosure, and green chemistry innovations.

To help enterprises navigate regulatory developments, meet compliance obligations, and foster global industry collaboration, we are organizing **CRAC 2025 in Singapore in October**. This summit will bring together regulatory officials, industry experts, and leading enterprises to discuss chemical management policies in key markets such as China, South Korea, and India. Additionally, it will provide insights into the latest developments in GHS and EPR while facilitating in-depth discussions on green chemistry and sustainability.

As a leading international business hub in the Asia-Pacific region, Singapore offers an ideal platform for advancing regulatory compliance and fostering innovation in the chemical industry. We warmly invite industry professionals to join us in exploring emerging trends and shaping a more sustainable future together.

CRAC Global 2025

CRAC China

September 10-11, 2025

| Hangzhou, China

[See Agenda](#)

- Green and Sustainable Development
- Global Chemicals Compliance Management
- Global Pesticide Registration and Practical Innovation
- Recycled Plastics & Synthetic Resins Compliance Session
- Session on Customs Compliance — Import and Export Supervision and Trade Compliance
- Closed-Door Salon: Navigating Compliance Pathways for New Cosmetic Ingredients

CRAC Japan

September 25, 2025

| Tokyo, Japan

CRAC OVERVIEW

2009-2019

Since its inception in 2009, the Chemical Regulatory Annual Conferences (CRAC) have been a key platform for promoting international regulatory communication and cooperation. The CRACs brought together participants from diverse industries, who shared cutting-edge information and explored new ideas and solutions for compliance, which contributed to the development and progress of the industries.

2020-2022

During the pandemic period from 2020 to 2022, REACH24H organized CRAC Virtual Forums to bridge knowledge and communication gaps across regions and share innovative and value-added regulatory, policy, and market insights. Overall, the online CRACs have attracted more than 10,000 global participants and covered 97 countries/ regions.

[CRAC 2021 Report](#)

2023

In 2023, the 15th Chemical Regulatory Annual Conference (CRAC 2023) takes a significant leap forward, bringing together an even greater number of companies and showcasing splendid experiences. It provides a valuable opportunity to delve into emerging regulatory requirements, and global market trends, and facilitates the exchange of ideas while fostering collaborations.

[CRAC 2023 Report](#)

2024

In 2024, REACH24H successfully launched the global tour of the Chemical Regulatory Annual Conference (CRAC Global 2024), hosting conferences across China, South Korea, Japan, and Europe. CRAC 2024 brought together over 600 participants to foster broader and deeper global collaboration. Centered around topics on chemicals, pesticides, cosmetics, and green sustainability, CRAC 2024 featured a dedicated session on Safer Alternatives and Sustainable, encouraging industries to accelerate their green transition and drive low-carbon innovation.
